Task Sheet No. 3:
COMPETENCIES ALIGNMENT MATRIX

INSTRUCTION:

As a pre-service teacher, you are tasked to prepare and submit a **Competencies Alignment Matrix** based on an actual or assigned Budget of Work (BoW)/Curriculum Guide/MELCs. Your goal is to examine the competencies, identify the expected learning outcomes, and formulate appropriate objectives that are aligned with the content, skills, and performance expectations for the lesson. The matrix should clearly present the BOW competency and its corresponding lesson objectives, demonstrating alignment between what learners are expected to learn and what they are expected to demonstrate. Your work will serve as a practical guide for lesson planning and will be evaluated based on the accuracy of alignment, clarity and measurability of objectives, relevance to the competencies, and organization of the output.

Note: *This task would help you accomplish the INTENTIONS, LEARNING EXPERIENCE, and ASSESSING LEARNING part of your lesson plan.*

Objectives generally address the expected learning outcomes with minor gaps.	Objectives address some expected outcomes but miss important knowledge or skills.	Objectives do not adequately reflect the expected learning outcomes.
Completeness and Accuracy (10%)	All required competencies and corresponding objectives are complete, accurate, and appropriately matched.	The output is mostly complete and accurate, with only minor omissions or errors.	Several competencies or objectives are incomplete or contain errors.
